Bachelor's Degree in Economics

(San Jose State University)

Expected Grad: 2027

Associate's Degree in Economics and Business

(Foothill College)

Grad: June 2022

EXPERIENCE

Tata Elxsi - UX Research Moderator

On-Site | 2025 - 2026

- Analyzed Qualitative and behavioral data from 15+ user research sessions to identify usability trends, friction points, and unmet user needs
- Translated research insights into actionable product recommendations, informing design and product decisions around 3-5 cross-functional teams
- Collaborated with product managers, designers, and engineers to improve user workflows and enhance product usability
- Evaluated user interactions and feedback to assess product performance and identify areas for improvement
- Synthesized research findings into clear reports and insights to support data-driven decision-making for product development

Tata Elxsi - Operations Coordinator

Hybrid | 2025 – 2025

- Conducted site inspections for 65+ residential and commercial properties to evaluate safety, operational, and logistical requirements
- Documented site conditions through 30+ detailed reports, photos, and videos to support planning via Microsoft Office
- Coordinated with property owners, vendors, and internal teams to gather requirements and ensure project readiness
- Developed precise floor plans, including emergency escape and fire routes, to support testing needs and regulatory standards

CLEAR - Sales Ambassador

On-Site | 09/23 – 02/24

- Engaged directly with high-volume users, gathering real-time feedback on customer experience and usability
- Identified recurring user pain points and collaborated with internal teams to improve operational workflows

PROJECTS

Sales Data Analysis and Dashboard

- Cleaned and structured raw sales data (1,000+ rows) using Excel functions (VLOOKUP, IF, data validation) to ensure accuracy
- Analyzed revenue trends, regional performance, and top-selling products using pivot tables to uncover key business insights
- Designed an interactive dashboard with slicers and charts to track KPIs such as total revenue, monthly growth, and product performance
- Identified key insights, including peak sales periods, high-performing regions, and underperforming product categories

Improving Mobile App Onboarding Experience

- Conducted usability testing sessions to evaluate the first-time user onboarding experience and identify drop-off points
- Analyzed user behavior to uncover frictions in onboarding flows, including confusion in initial setup steps
- Synthesized qualitative findings into key insights and usability issues
- Created a user journey map highlighting onboarding pain points

Skills

Spoken Languages- English and Spanish

Technical Skills- Excel (Pivot Tables, VLOOKUP, Data Cleaning, Dashboards), Google Sheets, Qualtrics, SQL(Basic SELECT, WHERE, GROUP BY)
